

**Supplemental Material to:**

Manicardi A, Accetta A, Tedeschi T, Sforza S, Marchelli R, Corradini R. PNA bearing 5-azidomethyluracil: A novel approach for solid and solution phase modification. ADNA 2012; 3(2); <http://dx.doi.org/10.4161/adna.20158>  
<http://www.landesbioscience.com/journals/artificialdna/article/20158>

**S1:** mass spectra of the peaks reported in figure 2. a) PNA1 bearing the azide function; b) PNA 1 after reduction of the azide to amine; c) the PNA in b) after reaction with 1-pyreneacetic acid

**S2:** mass spectra of PNA1 and PNA2 before (a) and after (b) the click reaction with propargyl alcohol
